PROFILE

With over 30 years of experience at Parker Hannifin, I have built comprehensive expertise across the full hydraulic connection value chain — from hands-on manufacturing through to advanced technical support and complex project quotation. A trusted technical contact for field sales engineers and OEM clients alike, I combine deep product knowledge, analytical rigour and a strong commercial service mindset.

KEY RESULTS

Indicator	Baseline (FY18)	Result (FY23)
Win Rate — quote conversion	12%	58% ↑ +383%
P75 Lead Time — quotation turnaround	163.8 h	24.9 h ↓ -85%

PROFESSIONAL EXPERIENCE

Technical Support & Quotation Engineer — OEM Specialist

June 2013 → Present

Parker Hannifin France SAS — Sales Company France · Contamine-sur-Arve, France

- Preparation of technical offers and quotations for hydraulic hose assemblies, fittings and systems — direct interface with field sales engineers and OEM customers.
- Advanced technical support to sales engineers on high-value or technically complex projects.
- PPAP specialist — accounts **Caterpillar** and **Volvo**: **100% on-time PPAP delivery over 2 years of activity** (Caterpillar).
- Management of inbound Parker Leads (parker.france@parker.com): qualification, distributor routing and cross-department coordination.
- Pricing consistency in line with Strategic Pricing guidelines; contribution to continuous improvement initiatives (PPP).

Project Estimator — Technical Quotation

March 2006 → May 2013

Parker Hannifin Manufacturing France SAS · Contamine-sur-Arve, France

- Quotation of flexible hose assemblies and kits; feasibility review; preparation of manufacturing documentation.
- Liaison with the Procurement department for article creation in JD Edwards ERP.
- Price and margin advisory to sales engineers; technical support on high-potential projects.
- Drawing standardisation — Structure Inventor; offer tracking via win rate and conversion indicators.

Tech Services Technician — Hydraulics

June 2003 → Feb. 2006

Parker Hannifin Manufacturing France SAS · Ville-la-Grand, France

- Manufacture of prototype connection assemblies (hose, fittings, tubing) from customer specifications and drawings.
